

Documented Changes rural_plw

Variables that potentially contained personally identifying information were dropped, with alterations made to the variables listed below:

- district: converted to number
- q133 to age: categorized
- q52a - q53_2 to muac_cat: replaced with MUAC construct
- q39 – q51 to NationalQuintile and UrbanQuintile: replaced with wealth quintile construct
- q70 – q70_7: replaced with four categories:
 - health_cat_1: underweight, low weight gain during pregnancy, anemia
 - health_cat_2: overweight, too much weight gain during pregnancy, diabetes
 - health_cat_3: other nutritional problems
 - health_cat_4: no nutritional problems
- q75 to times_doctor: truncated
- q82 to prev_preg: truncated
- q83 to prev_preg_term: truncated
- q131 to ed_lev: categorized
- q132 to hh_num: truncated
- q134_1 - q135_29 to num_children_adults: replaced with a variable indicating number of children relative to number of adults in a household
- q140 to exp_pers: replaced with per person expenditure group
- q64_3 to type_HCP: combined “Midwife/Traditional Birth Attendant” and “Other”
- q8 to num_comm: truncated
- q9 to num_hh_comm: truncated
- q17 to sachet_weeks: categorized
- q18 to sachets_month: categorized
- q20 to sachets_num: categorized

Codebook rural_plw

0	No	14	1.5%
1	Yes	939	98.5%

Variable name: q4_2

Variable label: 2. Government/private health facility
Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 953
Cases with missing values / total number of cases (percent): 386 / 1,339 (29%)

Value	Label	Frequency	Percentage
0	No	947	99.4%
1	Yes	6	0.6%

Variable name: q4_3

Variable label: 3. Relatives, friends, neighbors who have used Wellma
Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 953
Cases with missing values / total number of cases (percent): 386 / 1,339 (29%)

Value	Label	Frequency	Percentage
0	No	855	89.7%

Value	Label	Frequency	Percentage
1	Yes	98	10.3%

Variable name: q4_4

Variable label: 4. Relatives, friends, neighbors, friends who have not used Wellma

Variable type: Categorical

Number of distinct values: 2
 Number of non-missing cases: 953
 Cases with missing values / total number of cases (percent): 386 / 1,339 (29%)

Value	Label	Frequency	Percentage
0	No	938	98.4%
1	Yes	15	1.6%

Variable name: q4_5

Variable label: 5. Community influencer (eg religious leader, teacher, CO, VO, LSO etc.)

Variable type: Categorical

Number of distinct values: 2
 Number of non-missing cases: 953
 Cases with missing values / total number of cases (percent): 386 / 1,339 (29%)

Value	Label	Frequency	Percentage
0	No	943	99.0%
1	Yes	10	1.0%

Variable name: q5

Variable label: How many pregnant and lactating women do you know in your neighborhood/village?

Variable type: Categorical

Number of distinct values: 5
Number of non-missing cases: 886
Cases with missing values / total number of cases (percent): 453 / 1,339 (34%)

Value	Label	Frequency	Percentage
1	None	9	1.0%
2	1 - 5	473	53.4%
3	6 - 10	331	37.4%
4	11 - 20	61	6.9%
5	More than 20 PLWs	12	1.4%

Variable name: q6

Variable label: How many of these pregnant and lactating women have consumed/purchased Wellma?

Variable type: Categorical

Number of distinct values: 5
Number of non-missing cases: 844
Cases with missing values / total number of cases (percent): 495 / 1,339 (37%)

Value	Label	Frequency	Percentage
1	None	20	2.4%
2	Less than half of the PLWs I know	323	38.3%
3	About half of the PLWs I know	233	27.6%
4	More than half of the PLWs I know	88	10.4%
5	All of the PLWs I know	180	21.3%

Variable name: q7

Variable label: Did you or someone in your HH attend a community meeting about Wellma?

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 952
Cases with missing values / total number of cases (percent): 387 / 1,339 (29%)

Value	Label	Frequency	Percentage
0	No	261	27.4%
1	Yes	691	72.6%

Variable name: num_comm

Variable label: Number of times (this year) you attended a community meeting [modify]

Variable type: Categorical

Number of distinct values: 7
Number of non-missing cases: 690
Cases with missing values / total number of cases (percent): 649 / 1,339 (48%)

Value	Label	Frequency	Percentage
1	1 or less	100	14.5%
2	2	232	33.6%
3	3	139	20.1%
4	4	120	17.4%
5	5	60	8.7%
6	6	19	2.8%
7	7 or more	20	2.9%

Variable name: num_hh_comm

Variable label: Number of times (this year) a HH member attended a community meeting [modify]

Variable type: Categorical

Number of distinct values: 8
Number of non-missing cases: 685
Cases with missing values / total number of cases (percent): 654 / 1,339 (49%)

Value	Label	Frequency	Percentage
0	0	256	37.4%
1	1	54	7.9%
2	2	123	18.0%
3	3	130	19.0%
4	4	57	8.3%
5	5	34	5.0%
6	6	10	1.5%
7	7 or more	21	3.1%

Variable name: q10

Variable label: Have you ever purchased Wellma?

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 953
Cases with missing values / total number of cases (percent): 386 / 1,339 (29%)

Value	Label	Frequency	Percentage
0	No	19	2.0%
1	Yes	934	98.0%

Variable name: q23

Variable label: Who from your family/hh made the decision to buy Wellma or not?

Variable type: String

Number of distinct values: 16
Number of non-missing cases: 934
Cases with missing values / total number of cases (percent): 405 / 1,339 (30%)

Variable name: q115_4

Variable label: 4. Stop giving me bad side effects (eg nausea, headache)

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 276
Cases with missing values / total number of cases (percent): 1,063 / 1,339 (79%)

Value	Label	Frequency	Percentage
0	No	263	95.3%
1	Yes	13	4.7%

Variable name: q115_5

Variable label: 5. Make it easier to find/buy

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 276
Cases with missing values / total number of cases (percent): 1,063 / 1,339 (79%)

Value	Label	Frequency	Percentage
0	No	259	93.8%
1	Yes	17	6.2%

Variable name: q115_77

Variable label: 77. Other [specify]

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 276
Cases with missing values / total number of cases (percent): 1,063 / 1,339 (79%)

Value	Label	Frequency	Percentage
0	No	274	99.3%
1	Yes	2	0.7%

Variable name: q116

Variable label: In what ways can the taste be improved?
Variable type: String

Number of distinct values: 15
Number of non-missing cases: 159
Cases with missing values / total number of cases (percent): 1,180 / 1,339 (88%)

Variable name: q116_1

Variable label: 1. Make less salty
Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 159
Cases with missing values / total number of cases (percent): 1,180 / 1,339 (88%)

Value	Label	Frequency	Percentage
0	No	152	95.6%
1	Yes	7	4.4%

Variable name: q116_2

Variable label: 2. Make more salty

Variable type: Categorical

Number of distinct values: 2

Number of non-missing cases: 159

Cases with missing values / total number of cases (percent): 1,180 / 1,339 (88%)

Value	Label	Frequency	Percentage
0	No	157	98.7%
1	Yes	2	1.3%

Variable name: q116_3

Variable label: 3. Make less sweet

Variable type: Categorical

Number of distinct values: 2

Number of non-missing cases: 159

Cases with missing values / total number of cases (percent): 1,180 / 1,339 (88%)

Value	Label	Frequency	Percentage
0	No	75	47.2%
1	Yes	84	52.8%

Variable name: q116_4

Variable label: 4. Make more sweet

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 159
Cases with missing values / total number of cases (percent): 1,180 / 1,339 (88%)

Value	Label	Frequency	Percentage
0	No	141	88.7%
1	Yes	18	11.3%

Variable name: q116_5

Variable label: 5. Make other (savory) flavors
Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 159
Cases with missing values / total number of cases (percent): 1,180 / 1,339 (88%)

Value	Label	Frequency	Percentage
0	No	93	58.5%
1	Yes	66	41.5%

Variable name: q116_6

Variable label: 6. Make other (sweet) flavors
Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 159
Cases with missing values / total number of cases (percent): 1,180 / 1,339 (88%)

Value	Label	Frequency	Percentage
0	No	143	89.9%

Value	Label	Frequency	Percentage
1	Yes	16	10.1%

Variable name: q116_77

Variable label: 77. Other [specify]

Variable type: Categorical

Number of distinct values: 2
 Number of non-missing cases: 159
 Cases with missing values / total number of cases (percent): 1,180 / 1,339 (88%)

Value	Label	Frequency	Percentage
0	No	156	98.1%
1	Yes	3	1.9%

Variable name: q117

Variable label: What nutrients do you think Wellma contains?

Variable type: String

Number of distinct values: 12
 Number of non-missing cases: 951
 Cases with missing values / total number of cases (percent): 388 / 1,339 (29%)

Variable name: q117_1

Variable label: 1. Has 24 different vitamins and minerals

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 677
Cases with missing values / total number of cases (percent): 662 / 1,339 (49%)

Value	Label	Frequency	Percentage
0	No	375	55.4%
1	Yes	302	44.6%

Variable name: q117_2

Variable label: 2. Has more protien and calcium than a glass of milk
Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 677
Cases with missing values / total number of cases (percent): 662 / 1,339 (49%)

Value	Label	Frequency	Percentage
0	No	182	26.9%
1	Yes	495	73.1%

Variable name: q117_3

Variable label: 3. Has 10.5 grams of good quality protein
Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 677
Cases with missing values / total number of cases (percent): 662 / 1,339 (49%)

Value	Label	Frequency	Percentage
0	No	563	83.2%

Value	Label	Frequency	Percentage
1	Yes	114	16.8%

Variable name: q117_77

Variable label: 77. Other (specify)

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 677
Cases with missing values / total number of cases (percent): 662 / 1,339 (49%)

Value	Label	Frequency	Percentage
0	No	631	93.2%
1	Yes	46	6.8%

Variable name: q118

Variable label: What do you think are the benefits of consuming Wellma?

Variable type: String

Number of distinct values: 90
Number of non-missing cases: 951
Cases with missing values / total number of cases (percent): 388 / 1,339 (29%)

Variable name: q118_1

Variable label: 1. To improve weakness/fatigue/low energy during pregnancy

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 939
Cases with missing values / total number of cases (percent): 400 / 1,339 (30%)

Value	Label	Frequency	Percentage
0	No	269	28.6%
1	Yes	670	71.4%

Variable name: q118_2

Variable label: 2. To help with aches and pains during pregnancy
Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 939
Cases with missing values / total number of cases (percent): 400 / 1,339 (30%)

Value	Label	Frequency	Percentage
0	No	712	75.8%
1	Yes	227	24.2%

Variable name: q118_3

Variable label: 3. To prevent miscarriages
Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 939
Cases with missing values / total number of cases (percent): 400 / 1,339 (30%)

Value	Label	Frequency	Percentage
0	No	925	98.5%

Value	Label	Frequency	Percentage
1	Yes	14	1.5%

Variable name: q118_4

Variable label: 4. To improve growth and development of the fetus prevent birth defects

Variable type: Categorical

Number of distinct values: 2
 Number of non-missing cases: 939
 Cases with missing values / total number of cases (percent): 400 / 1,339 (30%)

Value	Label	Frequency	Percentage
0	No	835	88.9%
1	Yes	104	11.1%

Variable name: q118_5

Variable label: 5. To improve milk supply

Variable type: Categorical

Number of distinct values: 2
 Number of non-missing cases: 939
 Cases with missing values / total number of cases (percent): 400 / 1,339 (30%)

Value	Label	Frequency	Percentage
0	No	334	35.6%
1	Yes	605	64.4%

Variable name: q118_6

Variable label: 6. To reduce the risk of baby being born weak and underweight

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 939
Cases with missing values / total number of cases (percent): 400 / 1,339 (30%)

Value	Label	Frequency	Percentage
0	No	875	93.2%
1	Yes	64	6.8%

Variable name: q118_7

Variable label: 7. To improve maternal health after delivery / during lactation

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 939
Cases with missing values / total number of cases (percent): 400 / 1,339 (30%)

Value	Label	Frequency	Percentage
0	No	629	67.0%
1	Yes	310	33.0%

Variable name: q118_8

Variable label: 8. To improve the Infant's development and health

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 939
Cases with missing values / total number of cases (percent): 400 / 1,339 (30%)

Value	Label	Frequency	Percentage
0	No	561	59.7%
1	Yes	378	40.3%

Variable name: q118_77

Variable label: 77. Other [specify]
Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 939
Cases with missing values / total number of cases (percent): 400 / 1,339 (30%)

Value	Label	Frequency	Percentage
0	No	936	99.7%
1	Yes	3	0.3%

Variable name: q118_9

Variable label: 9. There are no benefits
Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 939
Cases with missing values / total number of cases (percent): 400 / 1,339 (30%)

Value	Label	Frequency	Percentage
0	No	933	99.4%

Value	Label	Frequency	Percentage
1	Yes	6	0.6%

Variable name: q119

Variable label: Who do you think should consume Wellma?

Variable type: String

Number of distinct values: 27
Number of non-missing cases: 951
Cases with missing values / total number of cases (percent): 388 / 1,339 (29%)

Variable name: q119_1

Variable label: 1. Anyone (men, women, and/or children)

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 942
Cases with missing values / total number of cases (percent): 397 / 1,339 (30%)

Value	Label	Frequency	Percentage
0	No	916	97.2%
1	Yes	26	2.8%

Variable name: q119_2

Variable label: 2. All women

Variable type: Categorical

Number of distinct values: 2

Number of distinct values: 2
Number of non-missing cases: 727
Cases with missing values / total number of cases (percent): 612 / 1,339 (46%)

Value	Label	Frequency	Percentage
0	No	409	56.3%

Value	Label	Frequency	Percentage
1	Yes	318	43.7%

Variable name: q147_2

Variable label: 2. Husband

Variable type: Categorical

Number of distinct values: 2
 Number of non-missing cases: 727
 Cases with missing values / total number of cases (percent): 612 / 1,339 (46%)

Value	Label	Frequency	Percentage
0	No	657	90.4%
1	Yes	70	9.6%

Variable name: q147_3

Variable label: 3. MIL

Variable type: Categorical

Number of distinct values: 2
 Number of non-missing cases: 727
 Cases with missing values / total number of cases (percent): 612 / 1,339 (46%)

Value	Label	Frequency	Percentage
0	No	460	63.3%
1	Yes	267	36.7%

Variable name: q147_4

Variable label: 4. Other family members

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 727
Cases with missing values / total number of cases (percent): 612 / 1,339 (46%)

Value	Label	Frequency	Percentage
0	No	395	54.3%
1	Yes	332	45.7%

Variable name: q147_5

Variable label: 5. RSPN's CRP

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 727
Cases with missing values / total number of cases (percent): 612 / 1,339 (46%)

Value	Label	Frequency	Percentage
0	No	503	69.2%
1	Yes	224	30.8%

Variable name: q147_6

Variable label: 6. RSPN's CBO/DPO

Variable type: Categorical

Number of distinct values: 2
Number of non-missing cases: 727
Cases with missing values / total number of cases (percent): 612 / 1,339 (46%)

Value	Label	Frequency	Percentage
0	No	717	98.6%
1	Yes	10	1.4%
